

# DAILY NEWS

GEO. C. JORDAN, Editor and Prop'r.

TUESDAY AUGUST 12, 1879

The West Point boys have the "dead wood" on General Schofield, having discovered that he was himself dismissed from the academy for "hazing," and that of the most disgraceful sort.

REPUBLICAN candidates for the government of New York are thick enough, the Ellenville (N.Y.) Journal, after reciting the count, says:

Not counting the "dark horse." At the present writing there is little doubt that Judge William H. Robertson, of Westchester county, would be the spontaneous choice of a large majority of the Republicans of the State.

The New Orleans *Democrat*, at once seeing the advantages likely to accrue to itself from the construction of the Florida canal, publishes in its Saturday issue a map showing the existing and the prospective routes, with the distance of each. The estimated saving of distance by the canal is a thousand miles, besides avoiding a dangerous route. The *Democrat* certainly does not overestimate the advantages of the enterprise.

Mr. WHITELAW REED, in a recent speech at San Francisco, said he "believed in God and the American people, and no matter how the campaign resulted, he hadn't the least idea that either was going to let the country go to destruction." Mr. Reed does not express such pious sentiments in his paper. He informs his readers every day that the country is going to destruction simply because the Democratic party continues to exist.

The exodus in Texas is assuming a queer phase. Near Galveston the negroes, having become dissatisfied with their condition, had determined to emigrate. The white people approved the decision of the colored brethren and formed a committee on emigration to raise money to send the negroes North, and soon steps will be taken to bring in white men to replace the blacks. Admiral Conway's relief boat didn't go to the Texas coast.

The St. Louis Times of recent date says:

French orders for wheat in large amounts have been received in New Orleans, but for want of steam tonnage the vessels have been sent to Baltimore. St. Louis is sending large quantities of bulk grain to New Orleans in barges, and the papers are jubilant over the success of the jetties. All that remains is for them to bring in the heavy carrying grain vessels, and the trade in assured. Without this, it is not far from the truth to call the river grain trade a delusion.

We have placed on our exchange list the Rochester (N.Y.) *Morning Herald*, daily of the independent class. There is no use of our pronouncing it good, handsome, etc., for in that city of bright papers a mediocre concern wouldn't last a week; so it is to be taken for granted that it is good. In an article relating to its position it enunciates the following truism:

It may be well to mystify the public before one takes a position, but after it is strictly carried out. Even the New York Times indulges in a sneer at Mr. Hayes about his hypocritical pretense of reform, and remarks that "If there be anything left for the President's civil service order, it is too slender a remnant to be worth the trouble." The gallant Wabash can afford to stand considerable chaffing for the sake of associating his administration of the Naval Department with the introduction of so honorable and benevolent a policy.

**A Wide-Awake Newspaper.**

Asheville Citizen.

Mr. John B. Hussey has withdrawn from the editorial connection with the Raleigh News and Mr. George C. Jordan is now sole proprietor. The News is a wide-awake newspaper.

**A Noble Spectacle.**

Boston Pilot.

Fall River, Mass., presents a noble spectacle of justice to-day, with three striking spinners under arrest for "combining to disturb the peace," and a defaulting treasurer at large and arranging to have his friends hush up the case. Fall River is a splendid nursery of Communism.

**An Increase Needed.**

Fall River would appear to be a place unfavorable to the growth of grace. They have had more benefit of evangelists than in any city we know of. Yet a number of men there who can handle other people's money without stealing some of it is much in need of increase.

**The Tones and the Odor.**

Washington Post.

A correspondent who proposes to speak by the card states that Mr. Hayes is seriously considering what he shall next do "to improve the tone of the civil service." He doesn't know much about the "tone," but the civil service could undoubtedly be improved by a liberal application of chloride of lime.

**"Honest" John.**

Cincinnati Enquirer.

The convenient absence of John Sherman and other cabinet officers from Washington gives the Republican party reassurance in the conduct of the department and the government printing office. When John returns he will be very indignant at what has transpired in his absence, but he will not be likely to compete with General Robinson's agents to return the money he has collected.

**Just Enough Paper Money.**

Pittsburgh Commercial Appeal.

The people want paper money, and up to a certain limit it is wise for the Government to issue it. That limit is the ability of the Government to hold it at par. Our National bank notes rest on United States interest-bearing bonds. The two systems give us all the money we need, and are well-balanced and popular.

**Fair Elections.**

Boston Herald.

A queer commentary upon the Republican demand for "fair elections" is the statement of Butterworth that when a Republican candidate for Congress was beaten he paid for the services of a leader of a gang of repeaters, to help him to have "a fair election."

**Not His Style.**

Hon. Charles Francis Adams for President finds an unlooked-for admirer in the Washington Post, which commends him to the consideration of Republicans. The trouble is that the politicians will not "boom" for a gentleman who, if President, would devote more time to the problems of statesmanship than to fixing "the boys" in home offices and foreign missions.

**No Pennsylvania Game There.**

New York Sun.

Comptroller-General Goldsmith of Georgia is impeached. Heretofore, the press dispatch says, he had stood above the crowd, and now is charged with having appropriated a sum of his own. Georgia is a Democratic State, and her Democratic Legislature is evidently determined not to tolerate any addition, division, and silence in the management of State affairs.

**Referring to the Crop Movement and the Money Market,** the Chicago Tribune of Friday says:

The most important feature of local finances last week was the gradual increase in the country orders for currency. The wheat crop in the southern part of this State and Indiana has

been extraordinarily large. Chicago must supply most of the currency to move this stuff, and our banks are responding to heavy calls from the interior for this purpose. At one time it seemed that it would be necessary to draw upon New York for succor, but it was prevented by a sudden rise in the price of New York exchange at the end of the week. Chicago bankers are making their calculations to handle the largest amount of currency this fall that has ever passed through their hands. The value of the New York banks will be drawn upon to an unprecedented extent. The immense crops of Illinois, Indiana, Kansas, Iowa, Minnesota, Nebraska, and Dakota will temporarily absorb immense amounts of currency. The money market and stock market will feel the effects.

**CIVIL SERVICE REFORM.**

Despite the much-vaunted order of President Hayes that political assessment of Government employees would not be allowed it is painfully evident that the assessment goes on nevertheless. The usual assessment for the ordinary run of clerks, who are paid from \$900 to \$1,200 a year, is per cent, on the salary, and above that 2 per cent, with a still greater levy on the heads of bureaus, chiefs of divisions, and the like, who are most willing to pay for the privilege of retaining their places, and who do not require to be pressed. It is well known as can be seen that any person holding a government position must "pony up" or his place will be soon vacated under one pretext or another. Consequently the extortions are submitted to. According to the best data there are over one hundred thousand Federal officeholders, exclusive of mechanics and laborers, in the navy yards and upon the public buildings, and of the annual compensation of this army of Government foragers amounts to about \$31,250,000. Any person can see what a grand fund for campaign purposes can be raised from this amount. Besides this there are thousands on the temporary lists, that do not appear at all upon the official roster, paid from conditional appropriations, or from some specific fund voted for a certain object. These all have to contribute their little percentage or they have to step aside and let some one in that will.

It is the President don of one of two things: either annul his order forbidding assessments or see that it is strictly carried out. Even the New York Times indulges in a sneer at Mr. Hayes about his hypocritical pretense of reform, and remarks that "If there be anything left for the President's civil service order, it is too slender a remnant to be worth the trouble." The gallant Wabash can afford to stand considerable chaffing for the sake of associating his administration of the Naval Department with the introduction of so honorable and benevolent a policy.

It is just, however, to state that the Navy Department endeavors to carry out the original order in its entirety, as the assessor only succeeded in getting \$10 out of the employees.

The Washington Post says that the Navy Department is a bad place for political assessors. A year or so since, when Admiral Howell was acting Secretary, a couple of assessors came around "plying their vocation," but were "bounced" by the admiral with more emphasis than politeness, and literally "necked" out of the building.

**A Wide-Awake Newspaper.**

The trouble is that the politicians will not "boom" for a gentleman who, if President, would devote more time to the problems of statesmanship than to fixing "the boys" in home offices and foreign missions.

**No Pennsylvania Game There.**

New York Sun.

Comptroller-General Goldsmith of Georgia is impeached. Heretofore, the press dispatch says, he had stood above the crowd, and now is charged with having appropriated a sum of his own. Georgia is a Democratic State, and her Democratic Legislature is evidently determined not to tolerate any addition, division, and silence in the management of State affairs.

**Referring to the Crop Movement and the Money Market,** the Chicago Tribune of Friday says:

The most important feature of local finances last week was the gradual increase in the country orders for currency. The wheat crop in the southern part of this State and Indiana has

been extraordinarily large. Chicago must supply most of the currency to move this stuff, and our banks are responding to heavy calls from the interior for this purpose. At one time it seemed that it would be necessary to draw upon New York for succor, but it was prevented by a sudden

rise in the price of New York exchange at the end of the week. Chicago bankers are making their calculations to handle the largest amount of currency this fall that has ever passed through their hands. The value of the New York banks will be drawn upon to an unprecedented extent. The immense crops of Illinois, Indiana, Kansas, Iowa, Minnesota, Nebraska, and Dakota will temporarily absorb immense amounts of currency. The money market and stock market will feel the effects.

**The Annual Interest.**

When Mr. Sherman gets through his double interest operations, and things settle down on an honest basis, the annual interest on the public debt will be \$3,222,542,500. The English pay an interest of 5 per cent, on \$140,000,000, and the French \$150,000,000.

## COMICALITIES.

There is a man whose name is Death,  
And in his side he carries a scythe,  
He cuts the widest kind of swath,  
In cities that don't keep clean.

—*Kansas City Times*

The Chicago *Times* spoke of Talmage  
as "a tailor" in the moral vineyard, and  
the poor reader has mysteriously disappeared.

The editor who credits a Bible quotation to "Unknown Exchange," tells the truth as far as he is concerned.

The Jim River *Blizzard* is a Dakotah Indian in the way of newspaper nomenclature. The editor must be a Virginian.

It cannot be said that Eli Perkins ever played in H. M. S. *Pinafore*, notwithstanding he has a hard lie ever on his tongue.

An editor being asked, "Do hogs pay?" says a great many do not. They take the paper several years, and they have the right to do so.

Because a Memphis boy shot a printer for killing his aunt, no man need be afraid of me. I have no hot-headed nephews.—*Widow Oliver*.

Boarders at Atlantic City hotels are not permitted to smash mosquitoes on the walls, but must get them down on the floor and choke 'em to death, and ring for the porter to draw off the corpse.

Mr. Landlord offered a guest \$5 not to say anything about the bugs found in his bed, but \$5 can't begin to crush one end of truth when a man has kicked the foot-board all night.

The Prince of Wales' children dress public in the simplest manner. But he can afford it. A poor man is obliged to keep up appearances.—*New York Commercial Advertiser*.

The Boston *Traveler* has an article on "Gas in Boston." This is the first time since the founding of the city that Transcendentalism was ever spoken of in that vulgar way.—*Albany Evening Journal*.

"Thermometer's up to ninety, Mr. Putnam," said a visitor to a State school, "let 'em go up to power, that man of mirth, about forty; I am not short on 'em."—*Boston Commercial Bulletin*.

An Albany genius calls a new suspender which has been patented "the conscience suspender." It owes its name to its extreme elasticity.—*Albany Journal*.

The St. Louis *Republican*, after keeping a stiff upper lip since 1898, breaks out as follows:

"Oh, give me a bed on a chunk of iron,

"Widow down in a thousand-foot well,

"And fan my brow with a threshing machine."

For I'm sick of this hot, hot spell."

They are going to erect a monument over the grave of Pocahontas at Gravesend, England. Courage, George! patience, Wash; patience; the monument period in working down dangerously close to you time.

A Vermont paper says: "I saw in a paper that a western farmer planted his fox with potatoes and it kept the bugs off. I planted fox with potatoes and the same day up, and the bugs roosted on it, waiting for the potatoes to come up."

The hotelkeepers at Saratoga have devised an ingenious plan for protecting their guests from mosquitoes. They have the corridors and balconies paraded at night by fat, bald-headed negroes, who are not only expected to serve as watchmen, but also attract the mosquitoes. The saving in mosquito-bars and window-screens is immense, and the fat men obtain a handsome income by sitting for photographs to be distributed by men who make patient medicine to cure pinhead hernia, sit-downs, and other eruptions, as pictures of people as they appeared before taking two bottles.

## Medical.

## Cuticura

### REMEDIES.

Infallibly Cures All Skin and Scalp Diseases, Scaly Eruptions, Itchings, and Irritations.

The testimonials of permanent cures of Skin and Scalp Diseases, which have been the test of Cuticura, the Cuticura Remedies are more wonderful than any method or remedy known to the medical profession.

Cuticura Resolvent, a powerful Blood Purifier, is the only purifying agent which finds its way through the skin, sweat glands to the surface of the skin, thus destroying the poisonous elements, thus removing the cause of disease, and commanding Cuticura. The Great Skin Cure, applied externally, arrests all unnatural or morbid growths, and removes all diseased glands and tubes with scaly, Itching, and irritating Humors, speedily removes the leaving the pores open healthy, and free from disease, and the specific of many diseases.

These internally and externally do these great remedies in conjunction, performing the best service given by the most noted physicians of the day.

Salt Rheum for 30 Years  
On the Head, Face, and Other Parts  
of the Body.

Moses Weeks & Son: Gentlemen, I have been a great sufferer with Salt Rheum for 30 years, commencing in my head, and spreading over the entire body, creating pain in every part of the body. I have taken gallons of medicines for the blood of different kinds and tried good physicians, of which there were many, but none could cure me of Cuticura. The Great Skin Cure, applied externally, arrests all unnatural or morbid growths, and removes all diseased glands and tubes with scaly, Itching, and irritating Humors, speedily removes the leaving the pores open healthy, and free from disease, and the specific of many diseases.

The first application was a great relief and the third took the scales all off, and I felt like a new man. I have used this on the body, face, skin, as such and I consider myself entirely cured. Hoping that this may be seen by some one after me, that will be a great relief to my earnest wish. And I cheerfully recommend it to all persons afflicted with like diseases.

Young Lord, Agawam, Mass., Sept. 9, 1878.

The Cuticura Soap should be used for cleansing all diseased surfaces, as most soaps are injurious to the skin.

LEPROSY.

A Modern Miracle, Astonishing Results from the use of Cuticura.

Messer. Weeks & Potter: Gentlemen, we have a case of Leprosy in our poorhouse which is being treated by Cuticura. The County had employed all of our doctors and had sent to New York for advice, but to no avail.

The patient had been using the Cuticura and immediately began getting better. He had been confined to a bed for two months, and was unable to walk, but during this time, last week he dressed for the first time.

We have walked, though we would at least one quarter of a mile, of him.

This happened every day.

We think it is a wonderful cure.

We do not know if it is cured, but he is in a fair way to be cured to say the least.

Yours truly,

W. P. COOPER'S BROTHERS,  
Druggists and Booksellers.

ALLEGAN, Mich., Feb. 11, 1878.

None of the Cuticura Remedy are thoroughly reliable gentlemen, and were unknown to us prior to the receipt of this letter. We desire to leave this Cuticura will permanently cure this terrible case of Leprosy, as it has done many others.

Prepared by Weeks & Potter, Chemists and Druggists, 300 Washington Street, Boston, Mass., and for sale by all Druggists and Chemists. Price of Cuticura, \$1.00 cents; large boxes containing two and one half times the quantity of small, \$1. Resolvent, \$1 per bottle. Cuticura Soap, 25 cents per cake; by mail, 30 cents; 3 cakes, 75 cents.

# DAILY NEWS

TUESDAY, - - AUGUST 12, 1879.

The thermometer at L. Braden's book-store, ranged as follows yesterday:

1 A.M.	72
12 M.	72
3 P.M.	74
6 P.M.	74

## Weather Report.

WASHINGTON, Aug. 11. For the South Atlantic States. Weather to southern and partly cloudy weather with slight change in pressure.

## LOCAL BRIEFS.

Revenue receipts yesterday were \$597.37.

No old bonds received at the Treasury yesterday.

The excursion to Beaufort leaves to-day at 1:30 p.m.

Rev. Dr. Pritchard returned to the city yesterday.

The churches were all ably represented Sunday.

Judge Avera presides over the Wake Superior Court.

Wake Superior Court met yesterday. There is a heavy docket this time.

Judge Avera arrived yesterday from the west. He presides over Wake court.

The residence of R. W. Best, Esq., on Hillsboro street, is nearly completed.

Mr. Lee S. Overman and lady left on a northern pleasure tour yesterday morning.

Captain John B. Hussey and family are on a visit to friends in Swan-hanna, Buncombe county.

Complaint is made that horses are driven on the sidewalk at the eastern terminus of Hargett street.

Nothing before the Mayor yesterday morning but a little colored boy charged with theft. Case continued.

Colonel T. M. Argus has returned from an extended pleasure tour through New York State and across the borders.

Mr. T. C. Worth has returned from the old homestead in Randolph. His trip seems to have done "him proud."

The wife of Mr. Mark King, an old compositor of the News, died Sunday morning. She was buried yesterday afternoon.

The pulpit of the two Baptist, the two Methodist, and the Second Presbyterian churches, were filled by strange ministers yesterday.

The road way in the rear of the post-office is completed. The grass is springing up and this is really a public square. Next year it will be a beautiful spot.

A number of the members of the Good Templars lodge of this city have gone to Winston to attend the meeting of the Grand Lodge.

Messrs. W. C. & A. B. Stronach, have another shipment of those fine life-style pictures which are attracting so much attention among citizens.

A colored girl named Annie Davis, aged about eighteen, left Baldwin's plantation. Her mother makes a request that persons will not hire her.

The heavy delivery wagon of J. Thomas ran into the Yarbo House "bus" yesterday morning, inflicting slight injuries upon one of the horses of the "bus."

Creech, the dry goods man, is offering his light weight and summer dress goods at very low prices. He says he has cleared out his store for fall stock, and hence they must be sold. See advertisement.

By one of those unexplained mysteries which happen in printing offices the list of arrivals at the National Hotel Saturday was omitted in Sunday morning's issue.

Sunday was cool enough to make it pleasant for a ramble. The city still lives. "Rancon" not having annexed any of our territory as yet. But Governor Medlin says he will have it yet.

The sermons of Rev. Thomas E. Skinner, D. D., on Sunday morning and evening, were greatly admired and highly complimented by all who heard them.

Lincke's swimming pond was emptied during the heavy rain storm the day before, and is filling up rapidly, but not with a dipper. Bathers may bathe Wednesday, if they choose, of course.

The excursion to Beaufort leaves to-day at 12:30 p.m. A large number will avail themselves of the opportunity. The proceeds are to be devoted to the Methodist Church of this city.

It is stated that Colonel W. R. Richardson will soon take charge of a Republican paper in this city. Well, if a Republican paper is to be started Colonel Richardson might as well run it as any one else.

Mr. T. F. Bookner of Hickman Lodge No. 1, O. G. T., of this city, left last night for Winston to attend the meeting of the Grand Lodge of the State, to which body he belongs.

Many and indeed many are of Beaufort to-day. The principal cause for the benefit of the Mayor's son Malcolm, the doctor advising a change of air. They will remain there for eight or ten days.

Colonel John A. McDonald received a letter from his son in Memphis, in which is stated the precise condition of that plague-stricken city. The particulars are given in another column.

Manager Starkie says no definite arrangements have been made to run a telephone from his office. His price is \$1000 per month. All telephones in this city are all over this city and no doubt the rumor gained currency from this fact.

The News is under obligations to the Southern Fertilizing Company, of Richmond, for a little pamphlet entitled "Grain Prospects," which embodies very valuable information and statistics touching the subject indicated.

Messrs. Yeargan, Petty and Jones are making a splendid success with their "Life-Line" Cotton. They are strong, disease-free, and all who tried it recommend it highly. It does not rot, and runs full two hundred yards to every spool.

The friends of Mr. W. B. Bell will be pleased to learn that he has regained his speech. Mr. Bell had been unable to converse audibly for some months. A few days ago he paid a visit to Fortress Monroe and after a short stay, discovered his ability to speak.

Dr. Skinner is much gratified at the warm reception tendered him by the members of the Salisbury street Baptist Church. He will return to Georgia this week on business of a private character after which he will come back and enter regularly into his duties as pastor of his old church.

Thanks are returned to the manager, Mr. A. Jones, for a most satisfactory ticket on the boat which will pass here to-morrow at 1:30 p.m. for Beaufort. It is gotten up in the interest of the Methodist church in this city, and we hope it will be well patronized. The tickets are good till the 26th of August. Go by all means.

Dr. J. B. Bobbitt, who has been absent from the city for several days engaged in a series of meetings at Mount Zion church, has returned home. The meeting, as we learn from our informant was attended with success. The Doctor is now engaged in a meeting at Beulah, six miles south of the city.

A word of comfort for our city bands: The Boston Herald says that "the problem of cheap fertilizers would seem to be solved by the fact that musical sounds stimulate the growth of plants. This opens up a promising field for rural band band." The act counts for good gardens in and about Eufaula this season.

Mr. J. W. Watson, well known as the old photographer of Raleigh, is carrying on that business in Eufaula. The Eufaula Times speaks highly of his skill as an artist and compares him favorably with "Brooks" of "Wash."

Mr. Watson has a large number of warm friends in this city who will be glad to learn that he is appreciated abroad.

Wicked for Clergymen.

"I believe it to be all wrong and even wicked for clergymen or other public men to be led into giving testimonials to quack doctors or vile salesmen called physicians, but when real physicians make such valuable remedies known to all, that all physicians and students of medicine will be greatly profited by them. I am a long-time sufferer with Liver Complaint, and naturally feel very anxious on the subject of a remedy. Will you kindly tell me what you can do for me?"

WILLIAM BARN.

LYNCHBURG, Va., May 12, 1879.—Wm. Barn, Esq., Bovine, Mississippi.

Dear Sirs:—Observe, I send you a certificate from you in reference to the "Iron and Alum Mass" of the Seven Springs, in Washington county, Va., in relation to its efficacy for Liver Diseases, would you have the kindness to inform me whether the "Iron and Alum Mass" or the "Water," also, a description of the symptoms and such other information as you may deem pertinent. I am a long-time sufferer with Liver Complaint, and naturally feel very anxious on the subject of a remedy. Will you kindly tell me what you can do for me?"
